

## **DOE Lessons Learned Template**

Title: Broader Interpretation of Risk Management Needed

Date: 06/13/05

Identifier: 2005-RF-07

Lessons Learned Statement: Risk Management practices are reflected outside of the document called the risk management plan.

Discussion of Activities: Rocky Flats personnel are conducting risk management activities as part of their monthly meeting and reporting. A typical report includes discussion of critical path/near critical path items, issues /potential issues that can affect project completion. Schedules are checked and updated to red-yellow green status, and corrective actions are identified.
